
Heath Bar Angel Food Cake

By Holly Clifford

Ingredients:

2 cups Heavy whipping cream
1-2 bags Heath bits (or 10 Heath/Skor bars smashed into bits)
1 Angel food cake, pre-made

Directions:

Cut Angel food cake horizontally in half and place bottom half on cake plate. Whip 2 cups whipping cream and then fold candy into whipped cream. Heavily frost the bottom half of the cake and replace the top layer. Finish frosting and chill at least 4 hours.

NOTE: You can vary the amount of candy used to taste. If you use the actual candy bars, the chocolate coating makes the cake even tastier as opposed to the heath bits that do not have chocolate.
